

Solutions for  
**Acne, congested,  
oily skin**

# AcneTerminator

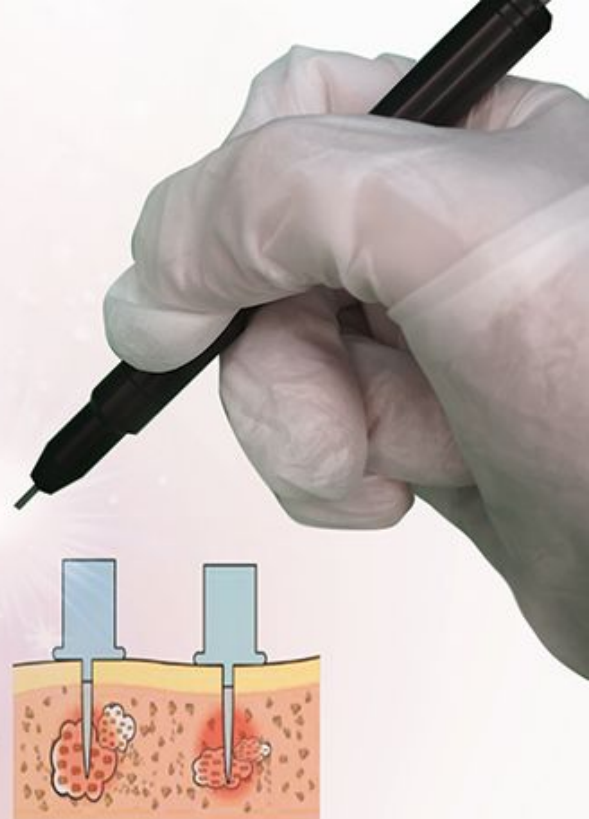

*Treats all types of ACNE (Suitable for acne sensitive skin)  
**Bye Bye ACNE & never return!!!***

## Principle of Treatment

Acne is a folliculitis that occurs in the sebaceous glands. If the sebaceous glands do not exist, the basic place of acne onset will not exist. Similar to the principle of permanent hair removal, destroying hair roots can remove hair permanently. Likewise, in order to prevent acne recurrence, sebaceous gland removal is the best method.

The acne removal instrument uses a fine insulated RF system needle that does not cause burns to the epidermis and only transmits high-frequency energy to the sebaceous glands. It is a safe and effective treatment.

Tubercle

Syringma

Blackhead acne pore blockage

Whitehead acne

Acne on back

Pustule

## Technical Specifications

Output Power	: 10 - 200W
Output Frequency	: 4 - 7W
Input Voltage	: AC 110V - 220V
Packing Dimensions	: 39cm x 29cm x 15cm
Total Weight	: 7Kg

痘痘粉刺“油矿”  
皮肤的解决方案

## AcneTerminator 绝灭痤疮

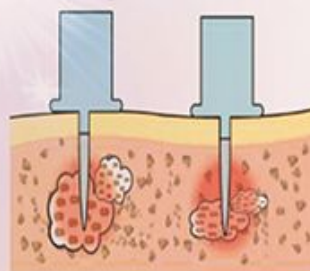

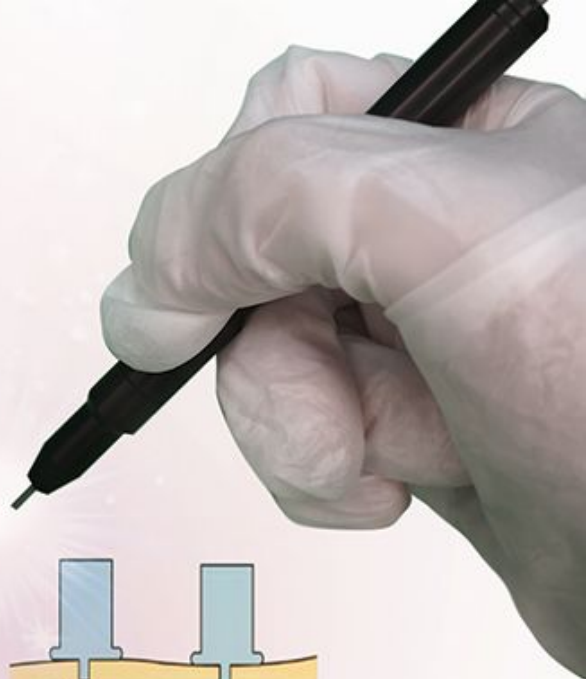

针对所有类型的痘痘（适合痘痘敏感皮肤）  
**Bye Bye 痘痘，永远不再回来!!!**

## 治疗原理

痤疮是皮脂腺中发生的毛囊炎。如果皮脂腺不存在，痤疮发作的根本场所将不存在。类似于永久脱毛的原理，破坏发根可以永久脱毛。也就是说，为了防止痤疮复发，皮脂腺的去除是最好的方法。

痤疮去除仪使用精细绝缘的RF系统针，该针不会对表皮造成灼伤，而只会将高周波能量传输到皮脂腺。这是一种安全有效的治疗方法。

结核性痤疮

丁香痤疮

黑头粉刺毛孔堵塞

白头粉刺

背部痤疮

脓疱痤疮

## 技术规格

输出功率	: 10 - 200W
输出频率	: 4 - 7MHz
输入电压	: AC 110V - 220V
包装尺寸	: 39cm x 29cm x 15cm
总重量	: 7Kg
