iContour™

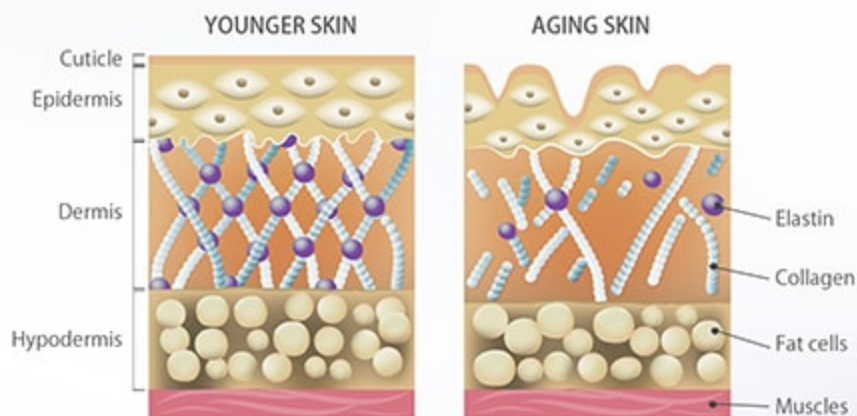

Who am I

I will bring back your lost youth
I will show you how beautiful your eyes are

iContour™ Eye Care System

Designed to effectively reduce eye bags, diminish dark circles and tighten skin around eye area.

High Technology

iContour™ System utilizes electromagnetism frequency principle and precision temperature controlling technology to apply on eye contour area safely and effectively.

High Productivity

Application of electromagnetic energy in an automated and continuous manner minimizes human intervention. This saves manpower and increases productivity!

High Quality Material

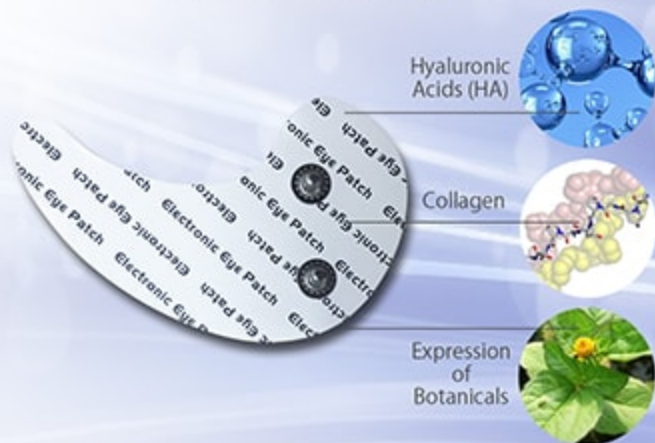

Eye patches are made of quality polymer hydrogels.

High Performance Ingredients

Eye patch contains botanicals, collagen and hyaluronic acids (HA). These ingredients are essential for keeping the skin healthy and young.

- **Highly comfortable & relaxing treatment**
- **Clients will feel a gentle yet stimulating heat on the eye contour**

iContour™ High Performance Ingredients

Before Treatment

After 3rd Treatment

Specifications

Product Name	: iContour™
Input Power	: 50W
Maximum Output Power	: 30W
Output Frequency	: 3MHz±0.2MHz
Timer	: 5-30M step by 5M
Energy	: 0-20J step by 1J

Temperature Measurement Scope	: 0-60°C
Electronic Power	: AC 100-240V 50-60Hz
Dimension	: 30cm*29.5cm*12.5cm
Net Weight	: 2kg
Certification	: EN ISO 13485 CE 1023
